

MINTEX®

BRAKING WITH TRADITION

BRAKE FLUID MOISTURE TESTER

- ✓ **Accurate brake fluid condition check in less than 60 seconds**
- ✓ **A quick and easy way to increase revenue from brake servicing**

Done in 60 seconds

- Step-by-step LCD screen instructions
 - Operates from 12 volt supply - using the car's own battery
 - Effective up to 320°C (608°F) - suitable for use on new and racing fluids
 - Results displayed within 60 seconds
- Compare with minimum DOT specifications (DOT4 or DOT5) - stored in the tester's memory

Check the profit potential

Not only does the Mintex Brake Fluid Tester speed up throughput of routine jobs, it provides an opportunity for additional brake servicing business.

See the example below for an idea of the profit potential:

| | |
|---|------------|
| Average size workshop daily throughput | 8 vehicles |
| Cars tested below minimum recommended level | 6 vehicles |
| Go ahead to change fluid | 2 vehicles |
| 40 minutes labour @ £24/hour | £16.00 |
| Minimum profit on fluid (1 litre) | £3.00 |
| Profit per vehicle | £21.00 |
| Payback period on 2 tests/day | 9 days |
| Potential annual revenue (700 cars @ £21/vehicle) | £14,700 |

Example shown is a rough projection, for illustration purposes only – users should estimate their potential profit return based on their actual costs and anticipated volume of customers for their business
