RACING

**F SERIES**

HIGH PERFORMANCE RACING COMPOUND

## F4 R

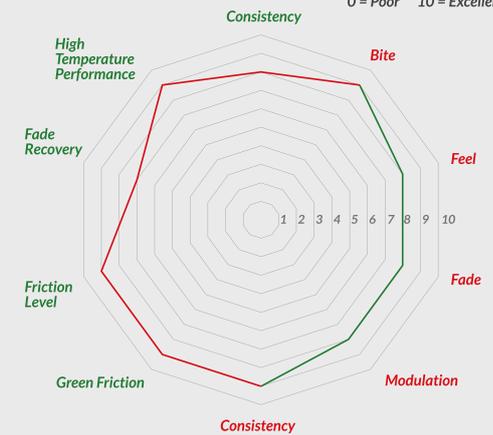

High-torque material with high initial bite, designed for vehicles with high down force or very high grip. Particularly good when fitted to vehicles of high weight and limited disc/pad size.

Typical applications include:

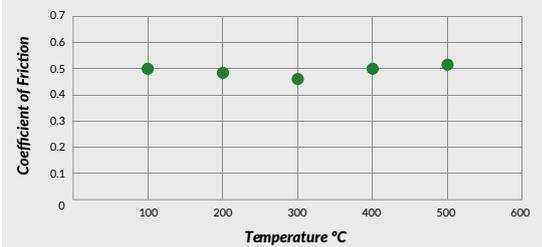

- **Track Days,**
- **Tarmac Rally**
- **Saloon (Sedan) Racing**
- **Single Seater Racing**
- **Historic Racing**

### F4 R
